Survey Results for Shermer High School

Background

This document is intended as an example of using RMarkdown and LaTeX to create professional looking reports.

In total there were 94 students from Shermer High School.

Results

Participants from Shermer High School were asked four questions about the professional development session:

- The session was applicable to my work
- The session changes my thinking
- The session reinforced my thinking
- The session was useful

The charts below show the percentage of respondents in each category, by the four questions.
